

# FASTENERS

A collection of various metal fasteners including bolts, nuts, washers, and a hook, scattered on a light surface. The fasteners are arranged in a way that shows different types and sizes, with some in the foreground and others in the background. The lighting is bright, highlighting the metallic texture and the threads of the bolts and nuts.

2026/27

KOVIAN, s.r.o. is a family-owned company founded by four brothers with a vision to build a stable and reliable business based on strong family values. Thanks to their shared dedication and determination, the company has been offering high-quality forged semi-finished products and components for blacksmiths and metalworkers for over 17 years. Their goal was to provide reliable solutions and expert advice while continuously striving to be as close to their customers as possible. They have succeeded in this — also thanks to their own delivery service across Slovakia and the Czech Republic. KOVIAN is a great example of a successful family business that continues to grow and innovate.

KOVIAN, s.r.o. ist ein Familienunternehmen, das von vier Brüdern mit der Vision gegründet wurde, ein stabiles und zuverlässiges Unternehmen auf soliden familiären Werten aufzubauen. Dank ihres gemeinsamen Engagements und ihrer Entschlossenheit bietet das Unternehmen seit über 17 Jahren hochwertige Schmiedevorprodukte und Komponenten für Schmiede und Schlosser an. Ihr Ziel war es, zuverlässige Lösungen und fachkundige Beratung bereitzustellen und den Kunden stets so nahe wie möglich zu sein. Dies ist ihnen auch gelungen – unter anderem dank ihres eigenen Lieferservices in der Slowakei und in der Tschechischen Republik. KOVIAN ist ein Beispiel für ein erfolgreiches Familienunternehmen, das weiterhin wächst und Innovationen hervorbringt.

KOVIAN, s.r.o. je rodinná firma, ktorú založili štyria bratia s víziou vybudovať stabilný a spoľahlivý podnik postavený na pevných rodinných hodnotách. Vďaka ich spoločnému úsiliu a odhodlaniu firma už viac ako 17 rokov ponúka kvalitné kované polotovary a komponenty pre kováčov a zámočníkov. Ich cieľom bolo poskytovať spoľahlivé riešenia a odborné poradenstvo, pričom sa neustále snažili byť čo najbližšie k zákazníkom. To sa im aj podarilo – aj vďaka vlastnému rozvozu po Slovenskej a Českej republike. KOVIAN je príkladom úspešného rodinného podnikania, ktoré naďalej rastie a prináša inovácie.

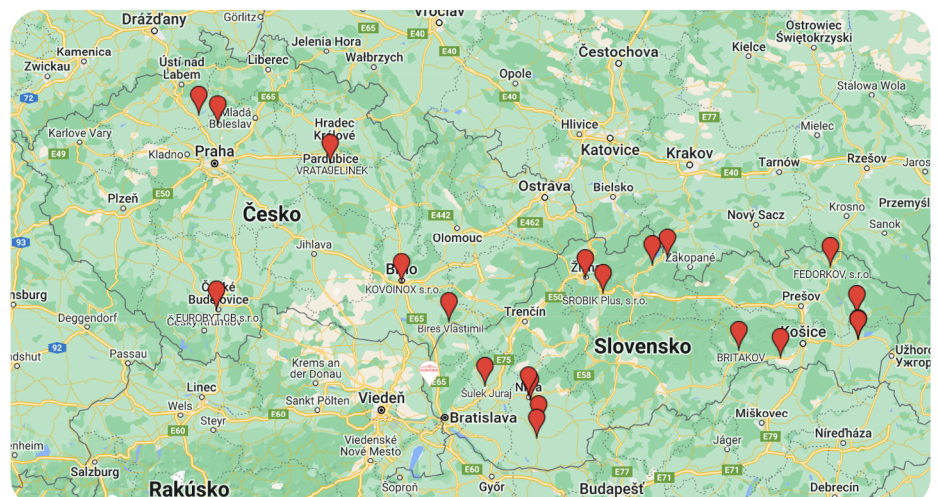

KOVIAN, s.r.o. je rodinná firma, kterou založili čtyři bratři s vizí vybudovat stabilní a spolehlivý podnik postavený na pevných rodinných hodnotách. Díky jejich společnému úsilí a odhodlání firma již více než 17 let nabízí kvalitní kované polotovary a komponenty pro kováře a zámečníky. Jejich cílem bylo poskytovat spolehlivá řešení a odborné poradenství, přičemž se neustále snažili být co nejbližší zákazníkům. To se jim také podařilo – i díky vlastní rozvážkové službě po České a Slovenské republice. KOVIAN je příkladem úspěšného rodinného podnikání, které naďale roste a přináší inovace.

**AISI304** Most frequently used steel, resistant to rust. Usable in both exterior and interior applications. Not recommended for use in aggressive environments such as seawater or swimming pools.

Die am häufigsten verwendete Stahlart, korrosionsbeständig. Geeignet für Innen- und Außenbereiche – nicht empfohlen für den Einsatz in aggressiveren Umgebungen wie Meerwasser, Schwimmbäder usw.

Najpoužívanejšia oceľ, odolná voči korózií. Vhodná pre interiér aj exteriér – neodporúča sa pri použití v agresívnejších prostrediach – morská voda, bazény atď.

Nejpoužívanější ocel, odolná vůči korozi. Vhodná pro interiér i exteriér – nedoporučuje se pro použití v agresivnějším prostředí – mořská voda, bazény atd.

**AISI316** Stainless steel with increased resistance to corrosion and acids. It is used in environments with high concentrations of chlorine, salts, in chemical laboratories, swimming pools, and is also resistant to seawater.

Edelstahl mit erhöhter Korrosions- und Säurebeständigkeit. Wird in Umgebungen mit hoher Konzentration von Chlor, Salzen, in chemischen Laboratorien, Schwimmbädern verwendet und ist auch beständig gegen Meerwasser.

Nerezová oceľ so zvýšenou odolnosťou proti korózii a kyselinám. Používa sa v prostredí s vysokou koncentráciou chlóru, solí, v chemických laboratóriách, plaveckých bazénoch, odoláva aj morskej vode.

Nerezová ocel se zvýšenou odolností proti korozi a kyselinám. Používá se v prostředí s vysokou koncentrací chloru, solí, v chemických laboratořích, plaveckých bazénech, odolává i mořské vodě.

**AISI 316L** Stainless steel with high corrosion resistance. Thanks to molybdenum, it withstands saltwater and chemicals. L = low carbon, so no corrosion cracking occurs during welding.

Edelstahl mit hoher Korrosionsbeständigkeit. Durch den Molybdänanteil hält er Salzwasser und Chemikalien stand. L = niedriger Kohlenstoffgehalt, daher entstehen beim Schweißen keine Korrosionsrisse.

Nerezová oceľ s vysokou odolnosťou proti korózii. Vďaka molybdénu vydrží slanú vodu aj chemikálie. L = nízky uhlík, takže pri zváraní nevznikajú korózne trhliny.

Nerezová ocel s vysokou odolností proti korozi. Díky molybdenu vydrží slanou vodu i chemikálie. L = nízký obsah uhlíku, takže při svařování nevznikají korozní trhliny.

**AISI 308L** Welding stainless steel for 304 and 304L steels. L = low carbon, so no corrosion cracking occurs during welding.

Schweiß-Edelstahl für die Stähle 304 und 304L.

L = niedriger Kohlenstoffgehalt, daher entstehen beim Schweißen keine Korrosionsrisse.

Zváracia nerez pre ocele 304 a 304L.

L = nízký uhlík, takže pri zváraní nevznikajú korózne trhliny.

Svařovací nerez pro oceli 304 a 304L.

L = nízký obsah uhlíku, takže při svařování nevznikají korozní trhliny.
